TEN OAKS NURSERY & GARDENS, Inc., Clarksville, Md.

Do It Yourself

Do it yourself by planting for yourself. We are open seven days a week during the planting season in Spring and Fall, since many people work and have only Saturdays and Sundays free to do their planting. If you feel that you can not do your own planting, we will do it for you at an additional 60% to all prices in the catalogue. This 60% includes composted soil—fertilizer and mulched with peat moss. This also includes a guarantee against our workmanship and plant defects for a period of ninety days. The above offer applies to a minimum order of \$25.00 within a thirty-mile radius of the nursery. With orders amounting to \$100.00 or more, the service charge will be 40% plus catalogue prices.

Local deliveries are made for customers living within approximately thirty miles of the nursery on specific days for different areas if the size of the order warrants doing so. Deliveries are made outside the thirty-mile area at cost.

For those customers doing their own planting, we have prepared bagged compost and baled Canadian spagnum peat moss available at current prices. We also carry a balanced organic fertilizer for feeding all your plants in Spring and late Fall.

Bushy shows you how!

Successful Culture For All Acid-Loving Plants

SOILS AND THEIR PREPARATION:

Soils good for growing azalea and their companions occur naturally in many places; in fact, it is borne out that by far the greater proportion of soil will produce good plants with little preparation. Where soils are not suitable for the production of good plants, there is usually no great difficulty in making them so without much trouble or expense. Soils suitable for azalea should be in good mechanical condition, open and friable, acid, well-drained, moist, and furnished with organic matter in generous amounts.

All that is necessary in preparing for the planting is to see that drainage is adequate. Where water does not stand on top of the ground for hours after a rain storm a well-drained place is generally present. Next it is necessary to see if the soil has the proper prerequisites for the growing of plants. For the best results, dig the hole that is to receive the plant twice as deep and twice as wide as the ball on the plant. Then take away all the soil, and make up your planting soil as follows: one part peat moss; one part coarse sand; one part good garden soil; mixing with this half a hand full cottonseed meal (or a good special organic fertilizer—not both). When this is thoroughly mixed, use this mixture for the planting of your plants—both under and around the plant, watering well as you fill with soil to the level of the ball. Never put the plant deeper than it was at the nursery. If your soil is sandy, leave out sand in your mixture. If your soil is sticky clay make your hole larger than necessary, in order that you may have a greater amount of the proper soil mixture around the plant. When the plants are completely planted and thoroughly watered, mulch the top of the ground with two or three inches of peat moss to keep the ground cool, moist, and acid; add to this mulch every Spring and Fall to keep it at this level. Never use lime or allow lime to be used on or near any of these plants; death may occur. Well decayed oak leaves, not maple, may be used in place of peat moss.

CULTURE AND CARE:

Because the greater mass of roots is found in the top few inches of soil, cultivation with a hoe is not advisable. You will not only cut the roots, but you will disturb the mulch of peat moss that is to be kept around the plants at all times. Pull by hand any weeds that grow, and shake off the peat that clings to the roots. Water heavy during July and August because azalea and rhododendron are making buds at that time for the following year. It is important not to feed your plants after June

15th, in order that they may harden in late Summer for the coming winter. Protect all small plants the first winter from winds with fruit baskets or burlap on stakes—a cold frame is even better. Plants are rarely killed after they have become acclimated.

FEEDING:

Use only special fertilizers, made by all the reliable firms, for broadleaf evergreens. Cottonseed meal is an excellent organic fertilizer. Sprinkle the fertilizer lightly around each plant out to the furthest branch and water at once. Fertilize twice a year—March and late May. Do not disturb the mulch by hoeing or raking the food into the soil.

PRUNING:

Little pruning is needed for garden azaleas other than to keep off the long, unsightly shoots, and to shape up the plant according to taste. All pruning must be done before June 15th because azaleas make their buds in June and July for the following year.

PESTS AND DISEASES:

Healthy plants that have been well fed and watered have few pests or diseases. If the above features have been neglected, here are a few pests and diseases that you may encounter. White-fly, Lacebug, Leaf minor, Scale, Thrips, and red mites are the most common pests with which to contend. These can be controlled by spraying just as soon as the danger of over-night freezing has passed. A second spray should be applied immediately after blooming, and a third spray should be applied two weeks later. We use a mixture of malathion, methoxychlor, and captan. Apply a forceful mist, and direct it under the leaves. For chlorosis or yellows, we use a 12% solution of sequestrene of Iron—NAFE. Directions will be found on the container. For fungi diseases we use bordeaux or cuprocid mixtures at ten day intervals. If there are any diseases that you cannot control, get in touch with your local department of agriculture or state college.

Sale Conditions

READ CAREFULLY, PLEASE, BEFORE ORDERING:

TERMS: Please send cash, check, or money order with your order. Because of the perishable nature of the materials, no C.O.D. orders can be accepted. If you are calling for your order at the nursery, please give us a few days notice in our busy season, so that we might have your order ready for you when you call for it. All orders are taken on the condition that we are not sold out when your order arrives. Please name some substitutes. We can not be responsible for future orders booked with us if we have crop failures.

PLEASE NOTE: All orders to be delivered in Maryland or D.C., add 2% sales tax. Orders can not be delivered until tax is paid.

SMALL ORDERS: On all orders of less than \$5.00 add 50c handling charge. Sizes available listed under each variety, subject to prior sale.

SHIPPING: All 2 to 4 inch azaleas and small pot hollies are shipped parcel post, prepaid. Large plants shipped Express collect. All packing done free of charge.

STOCK SPECIALLY SELECTED: Stock specially selected by the customers at the nursery will be charged for according to the value of the plant material chosen irrespective of the list price.

GUARANTEE: All plants are guaranteed to reach you in perfect condition. Claims must be made within five days after shipment is received by you. Claims must be made in writing. All plants guaranteed to be true to name.

AZALEAS The Glenn Dale Hybrid

Hardy Evergreen and Semi-Evergreen Types

The varieties listed this year are the plants that have come out on top after going through five or more years.

These are picked for heavy flowering plants; good winter and summer foliage; pleasing shades of color and hardiness.

There are many varieties that were just as hardy but were mere duplications so we are listing our pick in order to get the many azalea varieties consolidated into a smaller group. If you want full descriptions of these and the other Glenn Dale azaleas, you may get a copy of "The Glenn Dale Azaleas" by B. Y. Morrison from The Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Ask for monograph number 20 and send 40c.

ALADDIN. Upright, tall grower, salmon pink with dots of rose. Large single flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

AMBROSIA. Medium grower, begonia-pink to pale apricot. Large single flowers. Mid-season flowering.

Spring only—2 to 4 inch .50

ANGELA PLACE. Low to medium grower, pure white. Very large single flowers. Early flowering.

Spring only—2 to 4 inch .50
6 to 8 inch 1.25

ANTARES. Upright, tall grower, deep rose-red. Large, single flowers. Early flowering.

6 to 8 inch 1.25

ARCADIA. Upright, tall grower, deep rose pink. Large, single flowers. Early flowering.

Spring only—2 to 4 inch .50
6 to 8 inch 1.25

BALLET GIRL. Upright, tall grower, orange-red. Masses of hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

BISHOP. Upright, medium grower, rose-red with undertone of yellow. Single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25

BOUNTIFUL. Medium grower, phlox-purple and frilled. Large, single flowers. Early to mid-season flowering.

Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25

BUCCANEER. Upright, tall grower, orange-red. Single flowers. Midseason flowering.

6 to 8 inch 1.25

BURGUNDY. Upright, tall grower, red, darker on margins. Single flowers. Early flowering.

6 to 8 inch 1.25

CARMEL. Upright, tall grower, brownish-red effect. Single flowers. Early flowering.

6 to 8 inch 1.25

CAVALIER. Medium grower, brilliant orange-red. Single flowers. Early flowering.

6 to 8 inch 1.25

CHANTICLEER. Medium grower, purple, red tube. Large, single flowers. Midseason flowering.

6 to 8 inch 1.25

CLARION. Upright, tall grower, almost scarlet. Large, single flowers. Early flowering.

6 to 8 inch 1.25

COPPERMAN. Medium to low grower, brilliant red. Large, single flowers. Midseason to late flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

- COQUETTE.** Medium grower, almost begonia pink. Single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
- CORALIE.** Medium grower, salmon-pink.. Hose-in-hose flowers. Early to mid-season flowering.
6 to 8 inch 1.25
- CORAL SEA.** Medium grower, clear pink flowers. Mid-season flowering.
6 to 8 inch 1.25
- COMMODORE.** Medium grower, spreading, deep crimson. Large, single flowers. Early to mid-season flowering.
6 to 8 inch 1.25
- CRINOLINE.** Medium, spreading grower, pink with white eye. Very large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
- CRUSADER.** Low, spreading grower, geranium red with blotch. Large, single flowers. Late flowering.
6 to 8 inch 1.25
- DAYSPRING.** Medium, upright grower, white, shading to pink. Medium, single flowers. Very early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- DELIGHT. (NEW).** Upright, tall grower, pure white with flakes of purple. Very large, single flowers. Early flowering.
Spring only—2 to 4 inch .75
- DELILAH.** Medium, spreading grower, pure salmon-orange. Large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
- EMBER. (NEW).** Medium, low spreading grower, rose. Large, single flowers, Mid-season flowering.
Spring only—2 to 4 inch .75
- EMBLEM.** Upright, tall grower, scarlet-red. Single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- EVEREST.** Medium, spreading grower, white. Large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
- EUCHARIS.** Very low, spreading grower, white. Large, frilled, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- FAKIR.** Low spreading grower, rose with yellow undertone. Large, single flowers. Mid-season flowering.
6 to 8 inch 1.25
- F. C. BRADFORD.** Low, spreading grower, rose-red. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
4 to 6 inch .90
- FASHION.** Upright, tall grower, begonia-rose with white base. Large, hose-in-hose flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- FESTIVE.** Upright, medium grower, white sanded and striped rose. Large, single flowers. Very early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- FIRE DANCE. (NEW).** Medium, spreading grower, rose-red frilled. Large, single flowers. Mid-season to late flowering.
Spring only—2 to 4 inch .75
- GAIETY.** Medium, spreading grower, light rose-red. Mid-season flowering.
6 to 8 inch 1.25
- GALATHEA.** Upright, tall grower, deep red. Single flowers. Early flowering.
Spring only—2 to 4 inch .50
4 to 6 inch .90
- GEISHA.** Upright, tall grower, white striped purple. Single flowers. Early flowering.
4 to 6 inch .90
6 to 8 inch 1.25
- GLACIER.** Medium, spreading grower, white with faint green tone. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
- GLADIATOR.** Upright, tall grower, very deep red. Single flowers. Early flowering.
Spring only—2 to 4 inch .50
- GORGEOUS.** Upright, medium grower, rose-red. Very large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- GRACE FREEMAN.** Medium, spreading grower, medium pink with darker dots. Very large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50

- GRANDAM.** Low, spreading grower, white, sanded and striped purple. Large, single flowers. Mid-season flowering.
6 to 8 inch 1.25
- GREETING.** Upright, spreading grower, coral-rose, ruffled. Single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- HELEN CLOSE.** Low, spreading grower, white, with pale yellow center. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
- ILLUSION.** Medium, spreading grower, deep rose-pink. Large, single flower. Early flowering.
15 to 18 inch 4.00
- LYRIC.** Medium, spreading grower, white. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- MADRIGAL.** Low, spreading grower, light rose-pink. Very large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- MANHATTAN.** Medium, spreading grower, clear pink. Large, single flowers. Mid-season to late flowering.
Spring only—2 to 4 inch .50
- MARTHA HITCHCOCK.** Medium, spreading grower, white, margined purple. Very large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- MOONBEAM.** Medium, spreading grower, white with some frilling on margins. Very large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
- MOONSTONE. (NEW).** Medium, spreading grower, white with greenish throat. Large, single flowers. Mid-season to late flowering.
2 to 4 inch .75
- MORNING STAR.** Upright, tall grower, rose with yellow undertone. Large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- MUSCADINE. (NEW).** Spreading, but fairly tall grower, rose purple. Very large flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .75
- NATIVITY.** Medium, spreading grower, white with pale chartreuse blotch. Large, single flowers. Early to mid-season flowering.
6 to 8 inch 1.25
- NOCTURNE.** Medium, spreading grower, clear deep purple. Large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
- NIAGARA.** Low, spreading grower, pure white with chartreuse blotch. Large, single, frilled flowers. Mid-season flowering.
6 to 8 inch 1.25
- PALADIN.** Medium, spreading grower, medium purple. Large, single ruffled flowers. Mid-season to late flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- PARADISE.** Medium, upright grower, rose doree in color. Large, hose-in-hose flowers. Early to mid-season flowering.
15 to 18 inch 4.00
- PETER PAN.** Medium, spreading grower, rose-pink almost white in center. Single flowers. Early to mid-season flowering.
6 to 8 inch 1.25
- PHOEBE.** Low, spreading grower; pink flushed with rose. Large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- PINNOCHIO.** Medium, spreading grower, white with stripes of red. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- PORTENT. (NEW).** Medium to tall, spreading grower; white flaked purple. Single flowers. Early flowering.
Spring only—2 to 4 inch .75
- PRUDENCE.** Medium, spreading grower; dark rose in color. Early to mid-season flowering.
Spring only—2 to 4 inch .50
- RED BIRD.** Medium upright grower, semi-evergreen; scarlet red. Large, single flowers. Early to mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- RED ROBE.** Medium, upright grower, dark red with blotch. Large, single flowers. Early flowering.
6 to 8 inch 1.25

- REFRAIN. (NEW).** Tall, spreading grower; white with rose and pink stripes. Hose-in-hose flowers. Early flowering.
Spring only—2 to 4 inch .75
- ROGUE.** Medium, spreading grower; white with purple flakes. Very large single flowers. Mid-season flowering.
6 to 8 inch 1.25
- ROSETTE.** Medium, upright grower; purple red. Large semi-double flowers. Early flowering.
12 to 15 inch 3.00
15 to 18 inch 4.00
18 to 24 inch 5.50
- SAFRANO.** Medium, spreading grower, pure white. Very large, single flowers. Mid-season flowering.
6 to 8 inch 1.25
- SAGITTARIUS.** Very low and very spreading type of grower, brilliant pink with salmon undertone. Very large, single flowers. Late flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- SAMBO.** Medium, spreading grower; purple to brownish-red. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- SAMSON.** Medium, spreading grower; rose with yellow undertone. Large, single flowers. Mid-season to late flowering.
6 to 8 inch 1.25
- SARABANDE.** Medium, spreading grower; white center, edged purple. Large, single flowers. Mid-season to late flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- SCHERZO. (NEW).** Medium, spreading grower; white with violet stripes. Large, single flowers. Mid-season to late flowering.
Spring only—2 to 4 inch .75
- SCOUT.** Medium, spreading grower, beautiful orange-red. Large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
12 to 15 inch 3.00
- SEAFOAM.** Low, spreading grower; white, frilled, yellow in throat. Very large, single flowers. Mid-season flowering.
6 to 8 inch 1.25
- SILVER MIST.** Low, spreading grower; white sanded with magenta. Large, single flowers. Mid-season flowering.
6 to 8 inch 1.25
- SNOWCLAD.** Medium, spreading grower. Beautiful pure white, ruffled. Very large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
- SURPRISE.** Low, upright grower; medium pink with white margins. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
- SUWANEE.** Medium, spreading grower; rose-pink. Large, single flowers. Early flowering.
6 to 8 inch 1.25
- SWASHBUCKLER.** Medium, upright grower: rose-pink. Large, single flowers. Early flowering.
6 to 8 inch 1.25
- TAFFETA.** Medium to low, spreading type of grower; white sanded and striped purple. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- TEMPLAR.** Medium to tall grower; mallow-purple, white base. Large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25
- TREASURE.** Medium, spreading grower; white with a slight tint of pink when flower first opens. Very large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
- VESTAL.** Medium to low, spreading grower; white. Large, single flowers. Mid-season flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- VINTAGE.** Medium to low, spreading grower; pale purple. Large, single flowers. Early flowering.
Spring only—2 to 4 inch .50
6 to 8 inch 1.25
- VIOLETTA.** Medium to low, spreading grower; light mallow-purple. Large, single flowers. Early flowering.
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25
12 to 15 inch 3.00

WAVELET. Medium, spreading grower; white with yellow blotch. Large, single flowers. Mid-season to late flowering.
 4 to 6 inch .90
 6 to 8 inch 1.25
 10 to 12 inch 2.25

WILDFIRE. Low, spreading grower; deep rose with scarlet at base. Large, single flowers. Mid-season flowering.
 Spring only—2 to 4 inch .50

WITCHERY. Medium, spreading grower; clear pink. Large, single flowers. Early flowering.
 6 to 8 inch 1.25

YOUTH. Medium, spreading grower; pure light purple. Large, single flowers. Mid-season to late flowering.
 Spring only—2 to 4 inch .50
 6 to 8 inch 1.25

ZULU. Medium, spreading grower; mal-low purple with showy blotch. Very large, single flowers. Early flowering.
 Spring only—2 to 4 inch .50
 6 to 8 inch 1.25

U.S.D.A. HYBRID AZALEAS

Some very hardy and wonderful hybrids are coming from The United States Department of Agriculture at Beltsville, Maryland and many more are under test there. Keep your eye on these as we have found them to be extremely hardy under our severe tests.

EUREKA. Low, compact grower; lavender pink. Hose-in-hose flowers. Early flowering.
 Spring only—2 to 4 inch .50
 6 to 8 inch 1.25
 8 to 10 inch 1.75

GUY YERKES. Medium to low grower; salmon pink with darker spots in throat. Hose-in-hose flowers. Early flowering.
 Spring only—2 to 4 inch .50
 6 to 8 inch 1.25

PINK PROFUSION. Medium grower, clear pink with darker spots in throat. Large, hose-in-hose flowers. Early flowering.
 6 to 8 inch 1.25

ROSE BANNER. Medium grower; rose-pink with darker spots in throat. Hose-in-hose flowers. Early flowering.
 6 to 8 inch 1.25

WHITNEY. Low, compact grower; pure white. Large, single flowers. Early flowering.
 Spring only—2 to 4 inch .50

U.S.D.A. No. 49. Medium grower; pinkish-salmon. Hose-in-hose flowers. Early flowering.
 6 to 8 inch 1.25

U.S.D.A. No. 44. Low grower; salmon-pink. Early flowering.
 6 to 8 inch 1.25

U.S.D.A. No. 74. Medium, compact grower; pure white. Hose-in-hose flowers. Early flowering.
 6 to 8 inch 1.25

U.S.D.A. No. 91. Low grower; dark salmon. Large single flowers. Early flowering.
 6 to 8 inch 1.25

U.S.D.A. No. 228. Medium grower; white. Early flowering.
 Spring only—2 to 4 inch .50

U.S.D.A. No. 382. Medium, upright grower; rose. Early flowering.
 Spring only—2 to 4 inch .50

KURUME AZALEAS

Flowers of the kurume azaleas are small when compared to others, but they make up in numbers what they lack in size. Specimens in full bloom are often so covered with flowers that their leaves cannot be seen.

AMONENA. Hose-in-hose flowers. Purple. Early flowering.
 12 to 15 inch 3.00
 15 to 18 inch 4.00

CARMINATA SPLENDENS. Medium to low grower; red. Single flowers. Early flowering.
 4 to 6 inch .90

CHRISTMAS CHEER. Medium to low grower; brilliant red. Single flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

CORAL BELLS. Low compact grower; shell-pink. Hose-in-hose flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

HEXE. Low compact grower; crimson-red. Hose-in-hose flowers. Early flowering.

6 to 8 inch 1.25

HINO-CRIMSON. Medium compact grower; brilliant red. Single flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25
8 to 10 inch 1.75
10 to 12 inch 2.25

HINODEGIRI. Medium compact grower; red. Single flowers. Early flowering.

Spring only—2 to 4 inch .50
4 to 6 inch .90
6 to 8 inch 1.25

Your selection, shipped Express Collect (Offer No. H-56-3) \$25.00.

OFFERS

U.S.D.A. Chrysanthemums

Hardy Outdoor Garden Varieties:

These new Chrysanthemums, which we offered for the first time two years ago, have proven themselves as being very resistant to stunt, mildew and leaf drop. Besides taking the extreme winter cold in the garden, they took the worst drought in years without any watering this past summer.

A few directions to follow when getting the small plants in the spring. Unpack at once when you receive them, and water moss around roots throughly. Nip the terminal bud and plant in good but not too rich a soil. Fertilize only once keeping soil well weeded and aerated all summer. Nip the buds on each branch every two weeks up until July 15th, but never after that. By doing this you will have a nice stocky, bushy plant full of bloom in the fall.

Small well rooted plants in Spring only — .40

Large blooming size plants in Fall only — .75

ALGONQUIN. Single dwarf yellow, early flowering.

WHITE PON-PON. Pon-pon, beautiful creamy white.

E. PUNGENS (Olive). Shrub type growth with silvery-green leaves. Small silvery-white flowers in the fall. Flowers are very fragrant.

3 to 3½ feet 6.00

FIR (See Abies)

HEMLOCK (See Tsuga)

ILEX (HOLLY)

There are many valuable uses for holly. They can be used for the foundation planting of your home or for hedges, driveways, windbreaks and many more. One of the most wide uses today is the planting of holly orchards.

Hollies are dioecious; that is, they produce pistillate (female) and staminate (male) flowers on different plants. It is therefore necessary to have a male planted near a female tree in order to have proper pollen distribution on your female trees. If you live in a limited space and cannot have two trees, you can use some of the chemicals; (an example is Fruitone) or cut a spray from your neighbor's male tree and hang it in your female tree at blooming time, (around first of May here in Maryland).

Hollies like a well drained—but moist—soil. Before planting, dig the hole twice as deep and twice as wide as the ball on the plant to be planted. Next fill the hole with a mixture of one third sand, one third peat moss, and one third compost or good topsoil. Set the plant and fill the hole with the above mixture half way up on the ball. Tamp soil firmly, and water well to settle air pockets. After the water has soaked into the ground, finish planting to the level of the ball on the plant with the same mixture. Fertilize plants with an all-organic fertilizer such as cottonseed meal. Keep the plants mulched with three to four inches of peat moss. Small plants should be protected from the winter winds and sun during the first year.

Pruning of holly should be done once a year to keep the plants compact. The best time is about Christmas.

ILEX OPACA (AMERICAN HOLLY)

O. ARDEN. Selected for its good growing habits and handsome large quantities of beautiful red fruit.

Spring only—Small pot size .75
15 to 18 inch 4.00

6 to 8 inch 1.50
8 to 10 inch 2.00
18 to 24 inch 6.00

O. ROUNDIFOLIA. Leaf not as spiny as Aquifolium but flowers and growth the same.

8 to 10 inch 2.00

PICEA (The Spruce)

P. PUNGENS GLAUCA. (Colorado Blue Spruce). Seedling Colorado Spruce that are blue.

12 to 15 inch 4.00

P. CANADENSIS ALBA. (White Spruce). Compact growing specimen tree, with silvery green foliage.

12 to 15 inch 3.00

P. EXCELSA (Norway Spruce). Fast growing specimen tree. Dark green foliage.

12 to 15 inch 3.00

PIERIS (Andromeda)

P. JAPONICA. Beautiful broadleaf evergreen with glossy green leaves turning bronze in the winter. White flowers very early in the spring.

15 to 18 inch 4.50
18 to 24 inch 6.00

PINUS (The Pines)

P. SYLVESTRIS (Scotch Pine). Very fast grower, with silvery foliage.

3 to 4 feet 8.50

PRUNUS (Cherry Laurel)

P. LAUROCERASUS SCHIPKAENSIS. Waxy, laurel-like foliage. A beautiful broadleaf.

8 to 10 inch 2.25

PYRACANTHA (Firethorn)

P. CRENATA SERRATA. Very dark green leaves with small white flowers in the spring and beautiful large red berries in the fall.

10 to 12 inch 2.25

RHODODENDRON

The Rhododendron that we offer in this list are all grown here in Maryland by us and are not shipped in plants.

For best results plant Rhododendron on the north-east side of a building or in a shaded area where the morning sun does not hit them in the winter, and the afternoon sun does not hit them in the summer. Well drained soil that is damp but not wet is best for Rhododendron. Plant under the same conditions using same soils, fertilizers and mulches as you would use for planting azaleas. It is best to protect from the winds in the winter by a small portable lath fence or evergreen boughs until plants are well established.

RHODODENDRON HYBRIDS

- R. CATAWBIENSE ALBA.** Beautiful bluish white.
24 to 30 inch 8.00
3 plants for 22.50
- R. CATAWBIENSE BOURSALT.** Dark pink and an excellent grower.
24 to 30 inch 8.00
3 plants for 22.50
- R. CARACTACUS.** Crimson red.
24 to 30 inch 8.00
3 plants for 22.50
- R. EVERESTIANUM.** Beautiful deep lavender with yellow throat.
24 to 30 inch 8.00
3 plants for 22.50
- R. F. D. GODMAN.** Bright red.
24 to 30 inch 8.00
3 plants for 22.50
- R. LEE'S DARK PURPLE.** Dark purple.
24 to 30 inch 8.00
3 plants for 22.50

- R. PURPLE SPLENDENS.** Excellent purple.
24 to 30 inch 8.00
3 plants for 22.50
- R. PURPUREUM ELEGANS.** Pure purple.
24 to 30 inch 8.00
3 plants for 22.50
- R. ROSEUM ELEGANS.** Medium purple.
24 to 30 inch 8.00
3 plants for 22.50
- R. ROSEUM ELEGANS IMPROVED.** This is one of the English hybrids. Clear Orchid in color.
24 to 30 inch 8.00
3 plants for 22.50
- R. VAN DER BROEKE.** Crimson-red.
24 to 30 inch 8.00
3 plants for 22.50

SPRUCE (See Picea)

TAXUS (The Yews)

- T. BACCATA AUREA** (Golden English Yew). Pyramidal form, very compact with bright golden yellow foliage.
15 to 18 inch 4.50
- T. BACCATA ERECTA** (Upright English Yew). Upright type of grower of the dwarf English yew.
12 to 15 inch 3.50
15 to 18 inch 4.50
- T. BACCATA HIBERNICA** (Irish Yew). Very dwarf upright grower.
12 to 15 inch 3.50
15 to 18 inch 4.50
- T. CUSPIDATA** (Japanese Spreading Yew). Compact, fast growing spreading yew. Dark green foliage with red berries.
8 to 10 inch 2.00
10 to 12 inch 3.00
12 to 15 inch 3.50
15 to 18 inch 4.75
18 to 24 inch 6.75
24 to 30 inch 8.00
30 to 40 inch 10.00

- T. CUSPIDATA FEMINA.** Same as Cuspidata except it has more berries.
12 to 15 inch 4.75
15 to 18 inch 6.00
18 to 24 inch 8.00
- T. CUSPIDATA Densa.** New compact,, dwarf spreading yew. Low growing with very dense foliage.
8 to 10 inch 3.00
10 to 12 inch 3.50
12 to 15 inch 4.75
15 to 18 inch 6.00
18 to 24 inch 8.00
- T. CUSPIDATA NANA. BREVIFOLIA.** Dwarf, spreading yew. Very compact.
8 to 10 inch 3.00
10 to 12 inch 4.00
12 to 15 inch 6.00
- T. MEDIA.** Very compact spreading yew.
8 to 10 inch 2.00

T. MEDIA ANDERSONII. Wide vase-like form of T. Media.

12 to 15 inch 4.75
15 to 18 inch 6.00
18 to 24 inch 8.00
24 to 30 inch 10.00

T. MEDIA HATFIELD No. 2. Upright, broad grower. Dark green foliage with bright red berries.

8 to 10 inch 2.00
12 to 15 inch 4.50
18 to 24 inch 8.00

T. MEDIA HICKSII (Hicks Yew). Very distinct columnar yew. Dark green foliage with bright red berries.

8 to 10 inch 2.00
12 to 15 inch 3.50
15 to 18 inch 4.50
18 to 24 inch 6.00
24 to 30 inch 8.00
30 to 36 inch 10.00
36 to 40 inch 12.00

T. MEDIA KELSEYI (Kelsey Yew). Upright grower but very dwarf with very dense foliage. Bright red berries.

15 to 18 inch 6.00

T. MEDIA OVATA. Upright, broad type of grower. Almost globe shape. Dark green foliage with bright red berries.

8 to 10 inch 2.00
12 to 15 inch 3.75
15 to 18 inch 4.50
18 to 24 inch 6.00
24 to 30 inch 8.00

THUJA (Arbor Vitae)

T. OCCIDENTALIS. (American Arbor Vitae). Upright, flat leaved evergreen with medium-green foliage, becoming bronze in the winter.

3 to 4 feet 5.50

T. OCCIDENTALIS NIGRA. Improved form of American Arbor Vitae but with very dark rich green leaves.

3 to 4 feet 5.50

TSUGA (Hemlock)

T. CANADENSIS (Canadian Hemlock). Beautiful graceful branches, medium green foliage. All plants that we offer are pruned specimens.

12 to 15 inch 3.25

15 to 18 inch 4.25

2 to 3 feet 6.50

3 to 4 feet 8.00

5 to 6 feet (Heavy Specimens) 35.00

VIBURNUM

V. RHYTIDOPHYLLUM (Leather Leaf Viburnum). Evergreen viburnum with long leathery-like leaves. Bright red berries in clusters turning black.

3 to 4 feet 8.00

YEW (See Taxus)

DELUXE YEW COLLECTION

10—All different or alike yews, 10 to 15 inches. All Labeled.

Our Selection Express Collect (Offer No. T-56-1) \$22.50

HEMEROCALLIS OR DAYLILY COLLECTION

We have a large stock of daylilies, which we hybridized before World War II and all have bloomed. Many are as good as the present day named hybrids selling for .75, 1.00 and 1.50 each. These plants are unnamed and unlabeled, so we offer them to you in the following mixed collections at a very low price for what you are receiving in return for your investment. They start blooming in mid-May and go up into late June with a wide range of color.

10—All different, divisions mixed (Offer No. D-56-1) \$ 4.50 postpaid

20—All different, divisions mixed (Offer No. D-56-2) \$ 8.00 postpaid

40—All different, divisions mixed (Offer No. D-56-3) \$15.50 postpaid

100—All different, divisions mixed (Offer No. D-56-4) \$32.00 postpaid

Deciduous Ornamental Trees And Shrubs

ACER (The Maples)

- A. **DASYCARPUM**. (Silver Maple). Foliage is light green and silvery on the underside. A very fast grower.
3 to 4 feet 4.00
8 to 10 feet 8.00

- A. **PALMATUM ATROPURPUREUM**. (Japanese Blood Leaf Maple). Very dwarf true blood leaf maple.
15 to 18 inch 3.50

- A. **RUBRUM**. (Red Maple). Fast grower, with beautiful reddish flowers in the spring and brilliant red foliage in the fall.
3 to 4 feet 2.00

Heavy Specimens—4 to 5 feet 12.00

- C. **FLORIDA RUBRA**. (Pink or Red Flowering Dogwood). Beautiful, large pink flowers in the spring and brilliant scarlet-red foliage and berries in the fall.

Own root—15 to 18 inch 4.50
3½ to 4 feet 8.00

CRABAPPLE (See Malus)

CRAPEMYRTLE (See Lageratroemia)

CYDONIA (Quince)

- C. JAPONICA. (Japanese Flowering Quince). Masses of rich scarlet-red flowers in the early spring.
1½ to 2 feet 2.00

DEUTZIA

- D. GRACILIS. Snow-white flowers in Spring. Dwarf grower.
15 to 18 inch 2.50

DOGWOOD (See Cornus)

FORSYTHIA

- F. SPECTABILIS. One of the best. Rich golden yellow flowers in great profusion.
2 to 3 feet 2.00

FLOWERING CRABAPPLE (See Malus)

HYDRANGEA

- H. OPULODIES OTASKA. Blue or deep pink hydrangea.
15 to 18 inch 2.00
- H. PANICULATA GRANDIFLORA. White summer hydrangea.
18 to 24 inch 2.50

JUDAS TREE (See Cercis)

LAGERSTROEMIA (Crapemyrtle)

- L. WM. TOOVEY. A hardy red here in Maryland.
1½ to 2 feet 2.00

LABURNUM

- L. VOSSI. (Golden Chain Tree). Beautiful trees with flowers yellow and hanging like chains.
3 to 4 feet 6.00
5 to 6 feet 8.00

LILAC (See Syringa)

LIRIODENDRON TULIPIFERA (Tuliptree)

- L. TULIPIFERA. Very large, fast growing shade tree.
2 to 3 feet 2.00

MAGNOLIA

- M. SOULANGEANA. White flowers tinted pink.
12 to 15 inch 1.50

- M. STELLATA. (Star Magnolia). Pure white semi-double flowers in the spring.
12 to 15 inch 1.50

MALUS (Flowering Crabapples)

- M. DOROTHEA. Beautiful double pink flowers.
5 to 6 feet 6.00

- M. HOPPI. Beautiful red flowers.
5 to 6 feet 6.00

- M. KATHARINE. Double pink flowers.
5 to 6 feet 6.00

- M. PRINCE GEORGES. Beautiful double, shell pink flowers. Very compact tree.
4 to 5 feet 6.00

- M. SARGENTI. Pure white.
3 to 4 feet 4.00

MIMOSA (See Albizzia Julibrissin)

MOCKORANGE (See Philedelphus)

NANDINA (Sacred Bamboo)

- N. DOMESTICA. Low, bushy plant with brilliant scarlet-red berries and red foliage in the fall.
8 to 10 inch 2.00

OXYDENDRUM (Sourwood)

- O. ARBOREUM. Beautiful white flowers in the summer; gray fruits. Fall foliage is brilliant scarlet-red.
2½ to 3 feet 5.50
4 to 5 feet 15.00

PHILADELPHUS (Mockorange)

- P. BOQUET BLANC. Dwarf mockorange with beautiful double white flowers.
2 to 3 feet 2.50

PLATANUS (Planetree)

- R. ORIENTALIS. (Oriental Plane): Very fast growing shade tree.
10 to 12 feet 9.50

PRUNUS

- P. KWANZAN. (Flowering Cherry). Very beautiful double deep pink flowers.
4 to 5 feet 6.00

P. PERSICA AMYGDALUS. (Flowering Peach). Masses of red double flowers in the Spring.
4 to 5 feet 4.50

QUINCE (See Cydonia)

RED BUD (See Cercis)

SALIX (Weeping Willow)

S. BLANDA. (Wisc. Weeping Willow). Spreading limbs and pendulous branches. Dark green leaves and very hardy.
5 to 6 feet 5.00
10 to 12 feet 10.00

SORBUS (European Mt. Ash)

S. AUCUPARIA. Beautiful tree with great clusters of orange-red berries in the Fall.
6 to 8 feet 8.00

SPIREA

S. THUNBERGI. Beautiful masses of small white flowers.
1 to 1½ feet 2.90

S. VANHOUTTEI. Beautiful masses of small white flowers.
1 to 1½ feet 2.00

SYRINGA (Lilac)

S. EDITH CAVELL. Double white French hybrid lilac.
2 to 3 feet 2.50

S. SOUV. de LUDWIG SPAETH. Vary beautiful deep reddish-purple lilac.
2 to 3 feet 2.00

TILIA (Linden)

T. AMERICANA. (American Linden). Very beautiful large shade tree.
2 to 3 feet 2.00

TULIPTREE (See Liriodendron)

VIBURNUM

V. CARLESI. (Fragrant Viburnum). Very beautiful slow growing viburnum. Flowers are very fragrant. Light pink flowers.
8 to 10 inch 2.00

V. DILATATUM. (Linden Viburnum). Creamy white flowers in the Spring. Scarlet-red berries in the Fall.
2 to 3 feet 5.00

V. OPULUS STERILIS. (Snowball). Produces large round heads of snow-white flowers.
2 to 3 feet 5.00

V. SETIGERUM THEIFERUM. (Tea Viburnum). White flowers in early summer with scarlet-red berries in the Fall.
2 to 3 feet 5.00

WEIGELA

W. NEWPORT. Improved type of Eva Rathka. Beautiful carmine flowers throughout early summer.
2 to 2½ feet 2.00

W. ROSEA. Beautiful pink flowers in the late Spring.
2 to 2½ feet 2.00

**Let's Make It TEN OAKS For
Your Landscaping Needs!**

an invitation to membership in the

AMERICAN HORTICULTURAL SOCIETY

The Officers and Directors invite you to join this Society, the objectives of which are:

To accumulate, increase and disseminate horticultural information of interest and value to professional and serious amateur gardeners.

To maintain a national organization of amateur and professional gardeners, garden clubs, horticultural and plant societies and associations, for the promotion of their mutual objectives and the more unified protection of their broad mutual interests.

To serve all members continuously by supplying and exchanging information through the medium of the NATIONAL HORTICULTURAL MAGAZINE, special bulletins and personal correspondence.

Benefits Offered To Members

You will receive the quarterly NATIONAL HORTICULTURAL MAGAZINE. This expertly edited, profusely illustrated publication is written by noted professional and serious amateur horticulturists.

An average issue contains 72 pages. Subjects treated are suggested by Members, and may range from the culture, propagation and history of a specific plant, on to the latest developments in chemicals for garden use. Current books on horticultural subjects are reviewed. New and unusual plant materials are discussed.

Only Members of the American Horticultural Society are entitled to receive this unusual magazine.

You will become associated with some of the world's most prominent amateur and professional gardeners and horticultural scientists. Through the medium of the NATIONAL HORTICULTURAL MAGAZINE you will learn more about their activities, their ideas and opinions, and benefit from their knowledge and experience.
